INSURANCE RELEASE

We give our best estimate of what your insurance company will not pay at each visit and this amount is due at time of service.

Insurance is filed daily and all amounts not paid by them within 45 days of treatment are due and payable by you. After this time, 1 ½ percent per month (18% per year) is added to the bill, so it is in your best interest to monitor your insurance company.

It is your responsibility that we have all the correct insurance information. If the insurance company has not paid within 25 days, it is your responsibility to check with your insurance company.

If the insurance company sends you the payment by mistake, you will need to mail it to us or bring it by within two working days.

If you agree to the above and with the insurance company to pay their amount to us directly please sign and date.

WE ARE NOT A MEDICARE PROVIDER.

Signature of patient or guarantor

Date

If you do not agree to the above, you may pay us in full at each visit and we will be happy to file your insurance for you if you sign below and date.
